## Quit for Good™

### Help People Stop Smoking Seminar for Mental Health Professionals

Dates: October 15, 16, 17, 2010

**\*\* *Your first client will return your investment* \*\***

31 years ago, I went to see a NLP practitioner-hypnotist to stop smoking. I saw him for only two sessions. The first was for one hour, and the second session lasted about two and one half to three hours. After those two visits, I experienced no withdrawal symptoms, and, more importantly, I've never had the urge to smoke again. The following week, my wife went to the same fellow, and has been a non-smoker ever since as well. Moreover, the best part was not having unbearable cravings during the first several weeks.

I was so impressed with the method, I prevailed upon the hypnotist to teach his approach to me. I've used his technique with literally hundreds of people over the years with great success.

**This is your invitation to the QUIT for GOOD™ - Help People Stop Smoking training.** I will teach the technique to a exclusive group of people who have training in Traditional Hypnosis, Ericksonian Hypnosis & Brief Psychotherapy and/or Neuro-Linguistic Programming. As you may know, smoking is the number one risk for heart and/or lung disease. By helping people stop smoking, you will be of great service.

**Register early for the QUIT for GOOD™ - Help People Stop Smoking Seminar because enrollment will be limited to 20 participants.** Due to demand, 30 participants
